

Knock-Out

Liquid Laundry Emulsifier (L-19)

Description

This product is a superior color safe bleach alternative for your laundry washing needs. This product is full of surfactants, solvents, and brighteners. Knock out shines when used as a presoak. Knock-Out can also be used in commercial laundry machines. This product is capable of knocking out whatever you throw at it.

Directions

Sort laundry by fabric type and soil load.

Pre Soak– Submerge linen in Knock-Out. Allow at least 30 minutes of soaking. After pre soaking, you can then place linen into laundry machine. There is no need to rinse off.

Commercial Laundry- This product is to be injected during the wash cycle or a cycle directly after. If using an automated dispensing system, place the dispenser feed tube into the product container. Continue by selecting the correct operating program. After selecting your program the dispenser will then automatically inject the correct amount of product during the cycle.

Consult your Sales Representative for specific instructions and application set up.
