

# Bio-Zyme

Liquid Organic Odor & Stain Eliminator(H-29)

## Description

This unique enzyme based product helps liquefy and digest organic waste as well as eliminating odors arising from vomit, feces, and urine. Use in plumbing lines to destroy waste and keep pipes clear. Regular use helps establish colonies of bacteria in septic tanks to keep systems operating efficiently. Use on floors, walls, hard surfaces, urinals, carpeting, and on fabrics in the laundry operation.

## Directions

**ODOR/URINE:** Mix 1 part of enzyme product with 2 parts water and spray over problem area. Lightly brush or agitate to make sure all surfaces are treated. Allow product to soak until dry. Repeat steps for difficult odor areas. **DRAINS/GREASE TRAPS:** For drains and grease traps, add 4-5 ounces. For grease traps larger than 20 cubic feet, use 8- 10 ounces. For drain maintenance use an initial charge of 16 ounces and a lesser amount daily to keep drains operating properly. **NOTE:** For best results, daily automatic injection pumps provide the most consistent and effective preventative maintenance. **LAUNDRY STAINS:** Mix 1 part enzyme with 2 parts warm water and apply to stains. Allow to soak. Best if used in a soak tank and allowed to work overnight. Do not use hot or boiling water, disinfectants, bleach, chlorinated products, quats, or harsh drain additives either before, during, after use of this product. Use of these materials will kill the bacteria and render the product useless.

Consult your Sales Representative for specific instructions and application set up.

## Specifications

- Color.....White
- Fragrance.....Pleasant
- PH Range.....9.0-9.2
- Viscosity..... Light
- Density..... 8.5lbs/Gal

## Packaging

- 4/1 gallon
- 5 Gallon pail

## Applications

- Institutional Facilities
- Hotels
- Nursing Homes
- Food Service

## Safety Precautions

**DANGER:** Have product container or label near you when calling poison control center or physician. This product may cause skin irritation, eye damage, and breathing problems if inhaled. Wear rubber gloves and safety goggles while handling. Wash thoroughly after handling. If needed Immediately call a poison center/doctor. Wash Contaminated clothing before reuse.

**STORAGE:** Store in cool, dry conditions in well sealed containers. Store away from foodstuff. Do not store together with acids.

**DISPOSAL:** Small amounts may be diluted with plenty of water and washed away. Dispose of bigger amounts in accordance with Local Authority requirements. The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. **See Safety Data Sheet for more information.**
