

Liquid Laundry Fabric Softener (L-21)

Description

A concentrated liquid fabric softener for use in automatic injection laundry systems. Helps to provide soft and silky linens. Helps in reducing extraction time. Reduces static cling. Pleasantly fragranced.

Directions

Sort laundry by fabric type and soil load. Pre soak if necessary.

This product is to be injected during the rinse cycle. If using an automated dispensing system, place the dispenser feed tube into the product container. Continue by selecting the correct operating program. After selecting your program, the dispenser will then automatically inject the correct amount of product during the rinse cycle.

Consult your Sales Representative for specific instructions and application set up.

Specifications
